THE New York Sun makes the world's shortage this year in wheat and rye \$50,000,000 bushels; that is, the world lacks that much for enough consumption.

On the Fond du Lac Indian reservation in Minnesota over 10,000,000 feet of pine have been illegally cut and one of the inspectors is said to have ordered arrests.

THE emperor of Japan has decreed that every man who provokes a duel or accepts a challenge shall pay a heavy fine and serve from six months to two years in the galleys.

A COMMITTEE of the Georgia legislature recommends the passage of a "bachelor's bill." This taxes a celibate of thirty \$25 a year, the amount being raised every five years, until at sixty he pays \$200 for the privilege of singleness.

OFFICIAL statistics just published show that the provincial debts of Italy amount to 14,902,000,000 lire (\$2,980,500,000) or \$13.6-19 lire (\$103) for each inhabitant and \$13.2-10 lire on each hectare of land. This is, of course, in addition to the national debt, which is upward of 24,000,000,000 lire or nearly \$5,000,000,000.

TWELVE hundred men were landed from the fleet at Bar Harbor, Me., and marched to Keep park where they were reviewed by Secretary Tracy and Adms. Gherardi and Walker. Most of the cottagers and townspeople witnessed the evolutions. The thick fog which had covered Bar Harbor for three days necessitated the postponement of the fleet drill.

THE English liberal electoral executive hardly know how to treat the extraordinary crop of labor candidates finding acceptance in radical constituencies. The length of the list already adopted threatens to give preponderance to social questions in many districts where the electoral managers prefer to see the contest waged on ordinary party lines.

A LATE decree of the German emperor forbids the use of baptismal names of a political character. In future the only legal names will be those taken from the Bible and from princes and "loyal" statesmen, generals and patriots. This measure is intended to put a stop to the practice prevailing among socialists of giving their children the names of prominent revolutionists.

QUEEN VICTORIA is said to have made use for years of a mechanical device to enable her to rise in her carriage and bow to her enthusiastic subjects. Very strong springs are arranged under the carriage seat, and when the procession moves she can, by simply pressing a button at her side, be elevated into the attitude of acknowledgment as often as the cheers of the lookers-on require.

GEN. JAMES LONGSTREET, who was expected to attend the encampment of the New Hampshire veterans at Weirs, did not appear, owing to it was said, to certain newspaper articles tending to arouse prejudice against the confederate general. Resolutions were adopted by the veterans condemning the tendency to revive unpleasant memories and cordially inviting Gen. Longstreet to visit the encampment of 1892.

AN agent of the Bertillon system of measurements for identifying criminals visited the special agents of the treasury department in Chicago and suggested that the Chinese exclusion act could be made easy by the application of the system to all the Chinese in this country. Under the system it would be impossible for one celestial to personate another. He was referred to the department at Washington.

WHILE in Australia Sarah Bernhardt is said to have visited the famous Whispering Gallery near Klam, on the coast of New South Wales. The gallery is a horseshoe shaped chasm whose walls rise three hundred feet. A brook runs through it, forming several little cataracts, from the brink of one of which rise the "Parson's Steps," peculiar natural terraces on which Mme. Bernhardt stood and recited the "Marseillaise." The faintest accent, if distinct, is carried all around the horseshoe.

THE commandery of the Sons of Veterans has settled the long standing question of the status of Past Commander-in-Chief Walter S. Payne, who was court-martialed and expelled for misappropriation of funds. The committee of review reported that he was absolutely innocent of any intention to defraud the order but had under mistaken judgment wrongfully invested the funds. It recommended that the decree of expulsion be rescinded and that Payne be censured. There was a bitter fight over the report, but it was finally substantially adopted with the addition that Payne be deprived of his rank as past commander-in-chief.

The reports of the various grand officers show the order to be in a flourishing condition and full of cheering and consoling news to the craft throughout the entire jurisdiction.

THE new school law for cities of the first-class, passed by the last legislature, it has been discovered will work a delay in opening the schools of several cities from early in September, the usual time, to January, 1892. The cities that will suffer are Kansas City and Atchison, the school boards of both being in debt and the new levy not being available until January next. Kansas City (Kan.) proposes to open the schools and maintain them until January by means of private subscriptions and charging a small tuition fee.

THE Kansas association of Pennsylvania settlers recently held an annual reunion at Emporia, which ended with a picnic which was attended by over 3,000 people. Nearly every county in the state had representatives present. The following were elected officers: President, Rev. D. B. Shuley, of Emporia; treasurer, D. C. Lake, of Osage City; secretary, C. H. Hollman, of Topeka. Lyon county has over 1,000 Pennsylvanians and not less than 600 others were present. Topeka was chosen as the place for the next reunion.

E. W. Deming, of New Orleans, who owns a large sugar mill at Attica, is in Kansas to push the work of manufacturing sugar from sorghum. He has great faith in the sugar industry in Kansas and believes that Kansas sorghum can be made as productive of sugar as southern cane. At present the best plantations in the south get 200 pounds of sugar from a ton of cane, while Kansas sorghum yields but 100 pounds. Kansas sorghum contains more glucose than southern cane, and this is a serious difficulty in the way of making sugar.

SPECIAL Policeman Grigsby, on duty at Chelsea park, Kansas City, Kan., during the recent heavy storm, attempted to remove a telephone wire which had been blown down. He grabbed it with both hands and in a moment realized that he had hold of a "live" wire. The man was unable to release his hands and he writhed around in great agony. By the time assistance arrived smoke from his burning flesh was arising and he was in most terrible agony. It took several moments for the people who came to his assistance to comprehend the situation, but Grigsby, although undergoing awful torture, shouted to them to cut the wire. This was quickly done and the policeman was enabled to drop the wire. The palms of both hands were quite badly burned.

FRED Cook, a lineman employed by the Western Union telegraph company, recently had a marvelous escape from death while at work on the corner of Sixth street and Minnesota avenue in Kansas City, Kan. Smith was engaged in repairing a wire at the top of a telegraph pole when it accidentally came in contact with a "live" electric light wire. In an instant he was jerked from the pole and his body was dangling in the air. When the current struck him he gave one loud shriek. A scene of wild excitement followed, as the crowd expected to see Cook fall to the pavement and be dashed to death. Cook's face turned black from the effects of the heavy shock, but he recovered his senses long enough to shout: "For God's sake cut the wire." The deadly current again rendered him unconscious. Another lineman rushed to his rescue and cut the wire. Cook's hands were terribly burned.

THE total assessed valuation of property in Kansas in 1890 was \$160,891,689. In 1890 it was \$290,593,711; increase, \$129,702,022. The population in 1890 was 976,096; in 1890, 1,427,096; increase, 451,000.

Mrs. W. F. Brown, wife of the people's party candidate of Wyandotte county, was run down by an "L" road train at Kansas City, Kan., the other day and quite seriously injured.

THE BATTLE DECISIVE.

A Brilliant Victory Won By Gen. Canto Over Balmaceda in Chili—The Latter a Fugitive—Complete Rout of Government Forces.

VALPARAISO, Chili, Aug. 28.—Balmaceda's power in Chili is broken. His army has been crushed after five hours' hard fighting and is scattered beyond all hope of reorganization.

The revolutionists have taken possession of Valparaiso.

The future of Chili for the time has been settled, and settled conclusively, on the hills to the east of the city by the grim arbitrament of war.

With Balmaceda practically a fugitive, without resources in men or money; with the principal seaports of the country in the hands of the congressionalists, and a consequent shutting off of all income from customs receipts; with President-elect Vienna a refugee on board a German warship and the country flocking en masse to the standard of the invaders, it is only a matter of a few days when the capitol will fall into the hands of the revolutionary leaders.

Gen. Canto and his army won yesterday's battle by superior generalship, good hard fighting, assisted by good fortune in the killing of Balmaceda's generals and the consequent demoralization of the army and the desertion of entire regiments.

Early yesterday morning the boom of cannon announced to the people of Valparaiso that a movement beyond the ordinary skirmishes had begun. The occasional loud reports of heavy guns soon swelled into one continuous roar and then it was known that the final, decisive struggle, which, at the cost of thousands of lives, perhaps, was to decide whether Balmaceda or the junta was to be the ruling power in Chili, had begun.

Gen. Canto's position was on the hills above the race track at Vina del Mar, outside of the city. His raiders had been getting bolder and bolder as the time passed and had been making excursions further into the country. He had absolute control of the railroad to Santiago and commanded the ordinary roads. Hence Santiago was practically in a state of siege.

Affairs had come to such a pass that it was necessary for President Balmaceda to make some move, and a little after daylight yesterday morning the word was given to attack the position held by the revolutionists, and led by Gens. Barbosa and Alzerrera, the government troops left their breastworks and advanced on the enemy under cover of a heavy fire from their batteries.

As soon as the approaching column got within range of the rifles of the insurgents a destructive fire was opened by the intrenched revolutionists. The government troops advanced with much steadiness to the attack. They were soon near enough to do effective work with their pieces and the engagement became general. Shot and shell, grape and canister, and rifle bullets tore through the ranks of the advancing troops until it became too hot and despite the efforts of the officers they broke and retired almost in a panic.

Then came another attack. In steady ranks the government troops started on a double-quick up into the torrent of fire and lead which blazed from the ranks of the insurgent army.

Early in the second charge Gen. Barbosa was shot down and killed. The live wavered but kept on. Then Gen. Alzerrera fell from his horse wounded unto death.

Another break and then Gen. Canto gave the order to charge. With a wild yell the congressionalist army left their defense and charged on the retreating enemy.

The fighting lasted a little less than five hours, and its desperate character may be judged by the fact that fully 5,000 men were killed and wounded.

Shortly after noon the victorious army began to enter the captured city from the hills to the southeast.

During the afternoon such of the government troops as were in the city, or who came in, gave up their arms and most of them were paroled. Guards were stationed in the streets to see that the crowds of disbanded soldiers and the dangerous classes did not make trouble.

TRADE REVIEW.

Dun's Weekly Report Shows the Crop and Business Prospects Good.

NEW YORK, Aug. 29.—R. G. Dun & Co.'s weekly review of trade says:

Money is moving rapidly to the interior but the treasury has been strengthening itself, adding \$2,800,000 to its gold for the week and also taking in \$900,000 more treasury notes than it has put out. By requiring deposits of gold at New York against shipments of currency to the country banks, the treasury has somewhat increased its gold reserve, but the main fact is that its receipts for the past week have exceeded its payments of all kinds by about \$1,200,000. The official announcement that all the 4½ per cent bonds not offered for extension September 1 will be paid on demand promises a large addition to the available currency after the first of next month.

Crop prospects are in all respects exceedingly bright and the reports of injury by frost do not appear to affect any considerable portion of the crop. There is every reason to suppose that the yield of wheat would be larger than the 544,000,000 bushels estimated by the agricultural department, though a yield no greater would leave 200,000,000 bushels for export. Hog products are somewhat stronger in sympathy with corn.

At a Standstill.

ALEXANDRIA, La., Aug. 29.—The construction of the Kansas City, Watkins & Gulf railway from Spring creek to this place is at a standstill, as the teams and commissaries of the Prosser-Ware construction company are still under seizure for about \$15,000 due to salaried officers and laborers. It was expected some days ago that the construction company would send and pay the indebtedness, as they wired from St. Louis the day of the seizure, but R. L. Vanzant, who represents the firm, arrived here to-day, and says that he does not know what will be done, as the contract was taken too low.

A woman "run-down," overworked, weak, nervous and debilitated—that's a woman that Dr. Pierce's Favorite Prescription is made for. It gives her health and strength. All woman's weaknesses and all woman's ailments are cured by it. It's a legitimate medicine—not a beverage; an invigorating, restorative tonic and a soothing and strengthening nerve, free from alcohol and injurious drugs. It imparts tone and vigor to the whole system.

For all functional irregularities, periodical pains, organic displacements and uterine diseases, it's a positive remedy.

And a guaranteed one. If it doesn't give satisfaction, in every case, the money paid for it is refunded. No other medicine for women is sold on these terms. That's because nothing else is "just as good." Perhaps the dealer will offer something that's "better." He means that it's better for him.
